UNLIMITED genuine real traffic to your website for one month! Adsense safe! \$12.34

UNLIMITED genuine real traffic to your website for one month!

- REAL visitors with unique ip will be driven to your website. No bots.
- No china traffic at all!
- 80/100+ guaranteed daily visits
- You will receive constant visits for a whole month.
- The traffic is 100% adsense/bidtraffic/other SAFE.
- Entirely trackable on your GAnalytics
- Custom tracking provided
- The activation of the service will start within 48h.
- Auto played videos and music are now supported!

The Service:

Unique visitors from all over the world will visit your page at a random rate to keep things secure; a sudden boost of visitors would not be healthy, so it will flow for 30 days after activation. Please note that we don't have any China traffic, and you can specify additional countries to block during the order, if you wish to.

How does it work?

Your website will be inserted in a "topic-based pool" related to its content and keywords. When a visitor lands on any of our dynamically parked and expired domains, your website will be pulled and entirely displayed, matching the visitor's search.

PREMIUM TRAFFIC/USA TRAFFIC:

This feature will bring only premium traffic from USA, Canada and top European countries to your website (or only Usa). The rate can result as slightly slower than the WorldWide traffic, but in this case additional bonus days will be granted. There is an additional charge for premium traffic.

ALLOWED WEBSITES:

Although you are entitled to promote websites on any topic, some restrictions are applied in order to ensure visitors have a pleasant and safe navigation, such as:

- No popups/popunders
- No frame-breakers
- No prompts-on-exit
- No clickbank direct pages (but you can have a blog with clickbank links, just don't pull content from it)
- No redirections or shortened URLs (bit.ly, tinyurl, etc)
- No malware (sorry to state the obvious, but some really do put malware on their websites to infect visitors. If it happens, I will promptly notify digitalpoint's admin and cancel the campaign.)

Please be aware that your website will be analyzed on activation and monitored during the campaign, on a daily basis, to ensure it always meets the campaign's security policy.
When an invalid website is detected, the campaign will be suspended without notification.

HOW MANY VISITORS SHOULD I EXPECT? FOR HOW LONG?

The campaign will last for 30 days after you receive the order delivery. Each additional order for the same website will add other 30 days to the campaign.
The delivery is sent on activation, and I will always be available for support and further questions.

HOW CAN I TRACK THE VISITS? DO YOU PROVIDE ANY PROOF?

On activation, you will be given a customized Google URL that will be used exclusively by this service in order for you to keep track of the visits.
You will also be able to track the visits straight from your tracking service, such as Google Analytics.

WHAT KIND OF TRAFFIC AM I GOING TO RECEIVE? IS IT SAFE?

All visitors sent are 100% human. You will never receive traffic from BOTs, proxies or any other kind of fake hits; people can see your site more than once, but this campaign will only consider the unique visitors.
That's why it is totally safe to use with any advertising you may host on your website.
Visitors will be free to browse your website without limitation, so clicks and conversions may be possible but not granted, due to the genuine nature of the promotions.

IS THIS TRAFFIC TARGETED?

Although we do apply a general targeting, due to the cost of the service we can't target the exact keyword for your website.
Your website will be inserted in a "topic-based pool" related to your content and keywords.
When a visitor lands on any of our dynamically parked and expired domains, your website will be pulled and entirely displayed, matching the visitor's search.

CAN I RUN MULTIPLE CAMPAIGNS ON THE SAME WEBSITE, OR MULTIPLE LINKS OF THE SAME WEBSITE?

No, this is not possible at the moment; our traffic flow is studied to give best results as it is.
We are currently testing this features and we will implement them as they are ready.
